## REVALUE STATION

### Cash, Credit, or Code... It's your choice.

The Heartland Micropayments OneStop Revalue Station accepts credit cards, cash, and Code Based loads to add value to electronic cash cards. Your consumers have the choice to use whatever payment method they prefer. The unit also features an easy-to-read display, optional card dispenser, and an integrated printer. Setup is fast and easy, requiring only a standard power connection and a single telephone line, or LAN Connection.

The OneStop helps keep operating costs to a minimum. Save time on reconciliation with full reporting from both Heartland's Online Merchant Center ([www.heartlandpaymentsystems.com/OMCDemo/](http://www.heartlandpaymentsystems.com/OMCDemo/)) and the internal report generation capabilities of the unit.

The OneStop is component-based and is offered in three mounting options – front opening wall, back opening wall, and pedestal.

Credit card transactions are processed through Heartland Payment Systems' state-of-the-art processing platform.

**The OneStop Revalue Station provides the following features and functionality:**

▪ **Benefits & Advantages**

- ✓ Full reporting capabilities
