

WaveReader G6

Give your customers the payment options they want, even before they ask.

With the **WaveReader G6**, you can increase your laundry sales by adding convenience and security by adding cashless payments – easier than ever. These innovative payment devices are designed to work with most coin-operated washers & dryers and are backed by superior technology and industry expertise.

Now you can offer your customers the ultimate convenience of paying for their laundry service in more ways than ever before. The **WaveReader G6** fully supports EMV credit and branded-debit, stored value, and NFC mobile payments.

WaveRider provides a full cashless laundry system solution with simple-to-install units, and easy-to-use web-based account management tools. Promotions such as free wash and dry cycles and off-peak discounts can be performed quickly and easily via secure web interface.

The results are increased revenue and customer loyalty. Your customers can even find out, in advance, how many laundry machines are available by checking **WaveVision**, our innovative mobile-optimized website designed to maximize customer convenience.
