Increasing laundry room sales and convenience by adding credit/debit card acceptance has never been easier...

With the **Wave**Reader, you can grow your laundry sales while increasing convenience and security for your laundry room by adding credit/debit cards – easier than ever. These innovative payment devices are designed to work with most coin-operated washers & dryers and are backed by superior technology and expertise in unattended, cashless facilities. The **Wave**Reader fully supports credit & debit, stored value, and mobile payments.

Now you can offer your customers the ultimate convenience of paying with virtually any card they carry.

WaveRider provides a full cashless laundry system solution with simple to install units, and easy to use web-based account management tools. Promotions such as free wash and dry cycles and off-peak discounts can be performed quickly and easily via a secure web interface.

The results are increased revenue and customer loyalty. Your customers can even find out, in advance, how many laundry machines are available by checking **Wave**Vision, our innovative mobile-optimized website designed to maximize customer convenience.
