

WaveRider – AmenityCard is designed exclusively for properties that require the highest level of flexibility for their residents.

Some properties need the **convenience** and **modernity** of credit card payments, right at the laundry machine.

Some properties need the **simplicity** of offering an inclusive-laundry option as a resident amenity.

Now they can have both, at the same time.

By adding the new WavePoint AmenityCard, any standard WaveRider (credit card) property can also accept our new AmenityCard for laundry cycles.

Some residents and staff may be entitled to a specified number of cycles per month. Some could be issued a card with a limited amount of cycles as a bonus for renewing their lease. Perhaps the onsite Superintendent needs the ability to start machines as often as they deem necessary, without any value being charged.

All are possible – right from your web browser. Login to WaveCentral, enable the option, assign the cards, then hand them out.

As an add-on feature to WaveRider:

- it's easy,
- has almost no implementation costs
- and it works

All WaveReders can support AmenityCard feature.

KEY FEATURES

Four Modes of Operation:

- Declining Cycle Count
- Active Date Range
- Monthly Recurring Plan
- Accumulating Cycle Count (with audit)

Four Account Types:

- Residents
- Staff
- Superintendent
- Planned Laundry

All while supporting standard WaveRider features...

- Credit/debit card at laundry machine
- Residents can verify machine availability in advance
- Cardholders receive text message when laundry is done
- Secure PCI compliant
- End-to-end support No middleman

AmenityCard System Architecture

Residents that are eligible to receive an AmenityCard obtain it from property management.

Residents use their AmenityCard to start their laundry cycles. Residents that wish to pay for their cycles with credit & debit cards are free to do so.
